City council members,

Back on July 7th I replied to a survey from Stacey Armato asking where she came up with the conclusion the the majority of the city wants to pave or hardscape the greenbelt for accessibility issues, for I came up with the opposite conclusion from my discussion with neighbors and residents.

I also asked where I could find out just how much money we have spent on studies over the last 4 years related to "carbon Neutrality" and things such as hardscaping the greenbelt. I did not get a reply - so I am reaching out to anyone who could assist me in where I would find this information?

Also - is there a document that summarizes the voting history on issues for each council member that is accessible to the public?

Thank you for your response in advance.
